## 🪪 PROFILE

Highly motivated and results-driven developer with 1+ year of experience in the telecommunications (Telco) domain, seeking a challenging role in a dynamic organization. Committed to delivering high-quality software solutions, utilizing my strong technical skills and passion for innovation. Eager to contribute to a collaborative team and further enhance my expertise.

## 🧠 SKILLS

**Programming Languages**
C, C++, Java, HTML, CSS, JavaScript, Node.js, Express.js

**Framework**
Angular, React.js

**Databases**
MongoDB, SQL

**Version Control Systems**
Git, Bitbucket

**Microsoft Office**
MS Word, MS Excel, MS Powerpoint, MS OneNote

**Technical Skills**
Professional Experience in OOPs Concept
Familiar with Agile Methodology
Familiar with Jira, Confluence
Visual Studio, Eclipse IDE
Strong Debugging Skills
Experience in Clean code writing and reviewing

## 📑 CERTIFICATES

**Diploma in Full Stack Java**
FirstBit Solution, Pune

## 💼 PROFESSIONAL EXPERIENCE

**Giesecke+Devrient MS India Pvt Ltd.**    09/2022 – 11/2023
Junior Software Engineer    Pune, MH, India

- Utilized Git and Bitbucket for version control, facilitating collaborative development and code management.
- Followed Agile methodology, actively participating in sprint planning, stand-ups, and retrospectives to ensure project alignment and progress.
- Participated in multiple Proof of concepts (POCs), demonstrating innovative solutions to address technical challenges.
- Worked closely with the development team to ensure the OS met performance and security requirements.
- Contributed to the documentation and maintenance of the codebase, ensuring clear and organized source code using Confluence.
- Demonstrated a strong commitment to quality and delivered code on schedule.
- Design, test and debug software solutions for a variety of platforms.
- Development of independent modules, Integration, and unit testing.
- Add different Test scenarios to validate OS implementation.
- Resolve Customers query related to features.

# 🎓 EDUCATION

**Bachelor of Technology**                                                2022
Matoshri Pratishthan's School of Engineering, Nanded
CGPA: 9.05/10 (First Class with Distinction)

**Diploma in Mechanical Engineering**                                     2018
SSS'S Indira Institute Of Technology, (Polytechnic), Nanded
Percentage: 68.29% (First Class)

**SSC**                                                                   2014
Saraswati Vidyalaya, Malegaon
Percentage: 74.80% (First Class)

# 📂 PROJECTS

**SMARTSIM OS Development**                                    04/2023 – 11/2023
Version 4.3
**Technologies Used -** C, C++, Java, GIT, Jira, Confluence
**Description:** Contribution to SIM Card Operating System Development
**Major Responsibilities:**
- Implemented code in C, C++, and Java to meet project specifications.
- Experience in Global Platform, eUICC/eSIM, ETSI/3GPP, 5G Authentication
- Development of independent modules, Integration, and unit testing
- Utilized Git and Bitbucket for version control, facilitating collaborative development and code management.
- Worked closely with the development team to ensure the OS met performance and security requirements.
- Participated in code reviews, debugging, and optimization efforts to enhance system functionality.
- Contributed to the documentation and maintenance of the codebase, ensuring clear and organized source code.

**SMARTSIM OS Development**                                    09/2022 – 03/2023
Version 4.2
**Technologies Used -** C, C++, Java, GIT, Jira, Confluence
**Description:** Contribution to SIM Card Operating System Development
**Major Responsibilities:**
- Implemented code in C, C++, and Java to meet project specifications.
- Experience in Global Platform, eUICC/eSIM, ETSI/3GPP, 5G Authentication
- Development of independent modules, Integration, and unit testing
- Utilized Git and Bitbucket for version control, facilitating collaborative development and code management.
- Worked closely with the development team to ensure the OS met Performance and security requirements.
- Participated in code reviews, debugging, and optimization efforts to enhance system functionality.
